## ROOMS

Single Beds

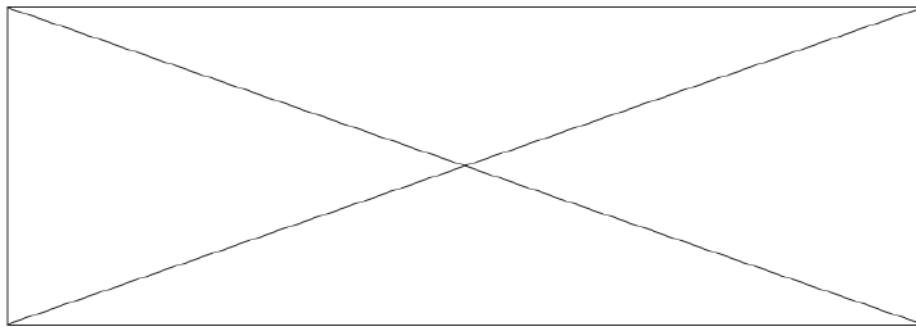

Offering students their own single beds in their rooms is a kind idea. This shows that the hostel understands that some students really like having a private space where they can be alone and not be bothered by roommates.

Double Beds

Giving students the chance to share a room with a roommate is why hostels offer double beds. This is good because it helps students make friends and feel more secure, especially if they're new to the area or haven't stayed in a hostel before.
